A Glimpse to The Report

A Message from Country Director

As everyone know better and familiar with OHW which stands with people who are unprotected and needs assistance and support, we bring local power to the account for local governance and our strategic priorities focuses on Human Rights, Food Security, Women Rights (Girls Education, Women Economic Empowerment), Child Protection (child rights and child protection), Advocacy, Education (education in emergency and formal education) Agriculture and horticulture (Forestry, Water Management and Drip Irrigation), research, assessments and Governance to empower most excluded communities.

We understand on accountability and transparency to the donor funds and give value to the effectiveness and efficiency of the implementation at the gross root level. So we are approaching different kinds of methodologies to ensure the accountability and transparency from downward to upward and vice versa including rights holder apart from that OHW established internal control and MEAL (Monitoring, Evaluation, Accountability and Learning) departments within the organization to ensure the effective use of resources. 2020 was a challenging and a pandemic year of COVID 19 for OHW in which we unfortunately lost our beloved mission members and co-workers during the provision of assistance to the most excluded population across the country. At the same time, we lost much financial assistance and resources during the crisis and majority of staff and volunteers lost their jobs and faced with food insecurity and their personnel life were negatively affected.

Despite number of challenges OHW overcame to get control on the situation through strongly committed team and active community engagement, as OHW was committed for the donor and partner for the effective implementation fortunately we have successfully completed and achieved the committed objectives and goals. Apart from that our majority of team members were infected by COVID 19 and we tried our level best and utilized our minimum resources to protect our staff and rights holder across the country.

I hope you enjoy reading this report and that it gives you further insight into the work that we do and the progress made despite we were facing with the challenging situation during the pandemic year as an organization in partnership with other donor and partner agencies during the 2020 fiscal year. Our staffs are our greatest resource, and I'm proud to say we have a team committed to working together for the success of our vision, mission and goals. As we enter 2021, I would like to take a moment to thank all the grassroots staff who worked very hardly to make the positive change in the life of poor and vulnerable communities.

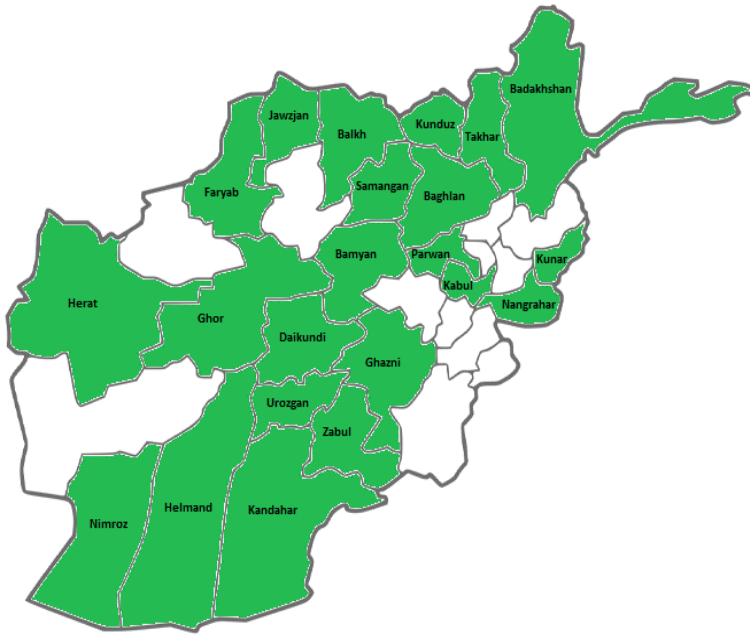

Sincerely
Ghulam Sakhi Gulam
Country Director OHW

WHO WE ARE?

Organization of Human Welfare is a nonprofit, non-government organization established in 2007 and registered with Ministry of Economy Afghanistan. OHW has strong management policy and procedure in place, and have enough governance skills and capacities in place, OHW is working and taking sides of very poor and excluded population without any discrimination such as race, religion, gender, ethnicity in all regions of Afghanistan currently we are implementing several programs and projects in different sectors in 20 provinces in Afghanistan and have long lasting partnership with various donor and international agencies. OHW is working in Afghanistan for the past 14 years, focusing on eradication of poverty and social inclusion and equal rights and justice. We are approaching all these through well planned and established and comprehensive programs and projects implementations prior to health, education, protection, livelihoods, Legal, Governance, Agriculture, educations, child rights, women empowerments, human rights, General protection, livelihood assistance, governance, and food security for all groups with specific focus on IDP's, Returnees and host communities. Furthermore, OHW is part of many International Clusters such as FSAC, Protection, WASH, Health, Emergency Shelter & NFI, Afghanistan Housing, Land &Property Task Force (HLP TF), BAAG, AMA and ACSONP and others, nevertheless, we proudly expressing our feelings that we have several active memberships with SWABAC, ACBAR, Afghanistan Institute of Civil Societies—AICS and International NGO's affiliates.

Where We Are?

Organization of Human Welfare has working experience of 34 provinces of Afghanistan and currently have active presence in five regions consistent of 20 provinces with long lasting partnership of national and international agencies.

The green house is visited by the OHW program manager and north provincial coordinator and talk about the outputs of the green house, the picture is taken by Ms. Tahira Akbari (November 24, 2020).

Solar Dryer Machine Distribution for the most vulnerable 25 women in the presence of Program Implementation Coordinator

Women economic empowerment and food security project designed to target 3750 people with direct and tangible services to improve their livelihood, income generation and eating habits in rural areas of Samangan province. Meanwhile it will benefit 63000 people indirectly. The project participants are selected among the most deprived women of the 50 target CDCs (10 in Samangan, 10 in Herat, and 30 in Jawzjan) with the help of a set of criteria and jointly with departments of the ministries, members of the CDCs, local and provincial authorities and partner organisations.

The main objectives accomplished are.

1. Women have employable skills for productive employment and benefit from enterprise development services.
2. Women and men have improved their eating habits; the capacities of the partner organization have been improved.

The WHH Deputy Program Manager Mr. Musmir visits from WEE Project exhibition ceremony.

Measuring income generation is articulated in the following five sections:

- ✚ Greenhouses.
- ✚ Vegetable and fruit process.
- ✚ Strawberry cultivation
- ✚ Kitchen Gardening.

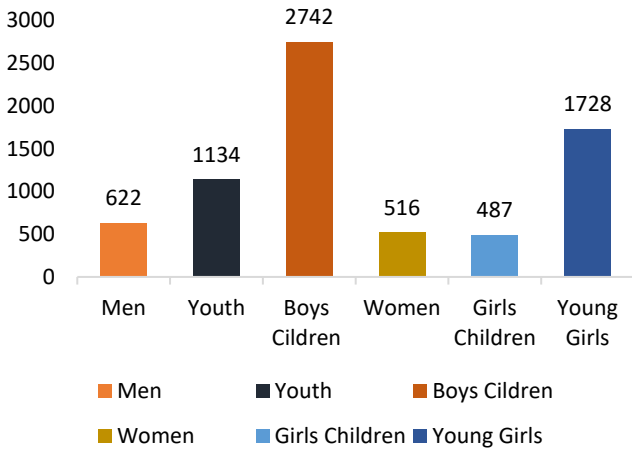

Local Rights Program

Local Rights Program LRP 5

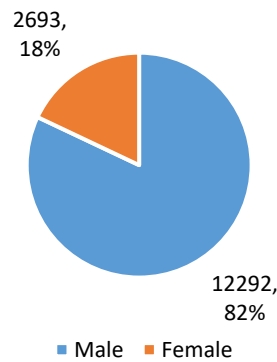

Solidarity with People Living in Poverty and Exclusion will be the only bias in our Commitment to the fight against poverty, injustice, and gender inequality to protect rights of children, particularly girl children in all our LRPs by promoting their education, development, protection and participation in social changes.

Local Rights Program LRP 9

Total Target Beneficiaries Based on Percentage in LRP 9

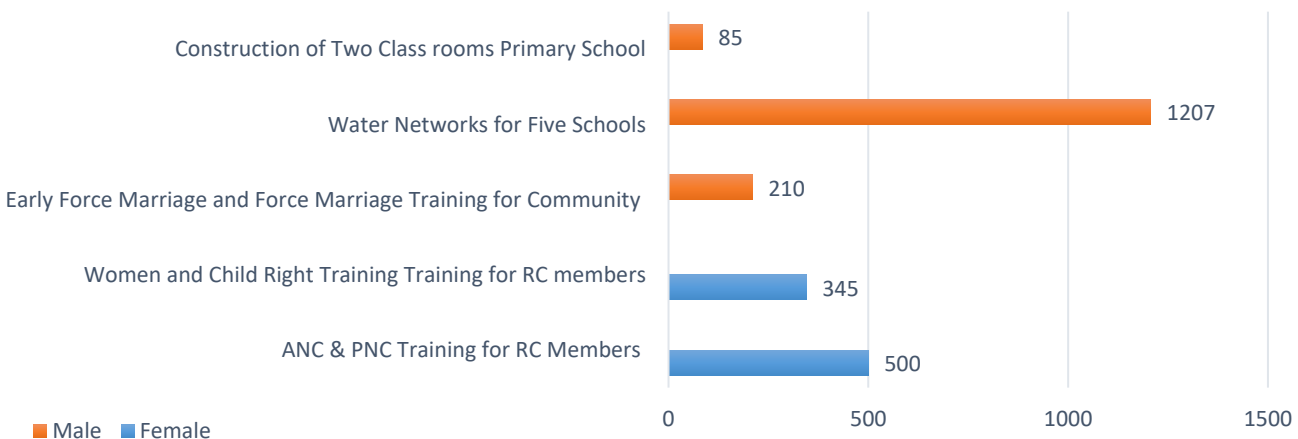

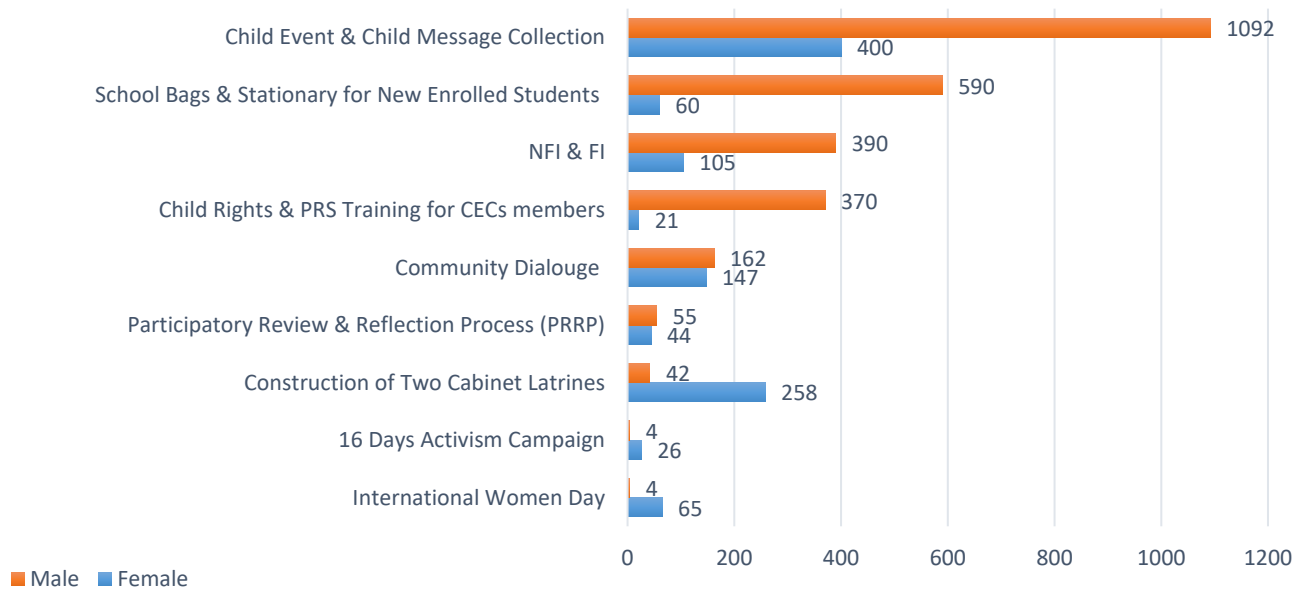

Through Local Program 9, mothers and children in the target communities are having better health which further leads to reduction in maternal and child mortality rates. Women know about their right and discuss any women related issue in side Reflect circle and also referred violence against women cases to DOWA (Department of Women Affairs) beside that improved education system. Very important point is that community people aware about their right and advocate for

Distribution of bags and stationary for 650 new enrollments in Kohnakaldar secondary school

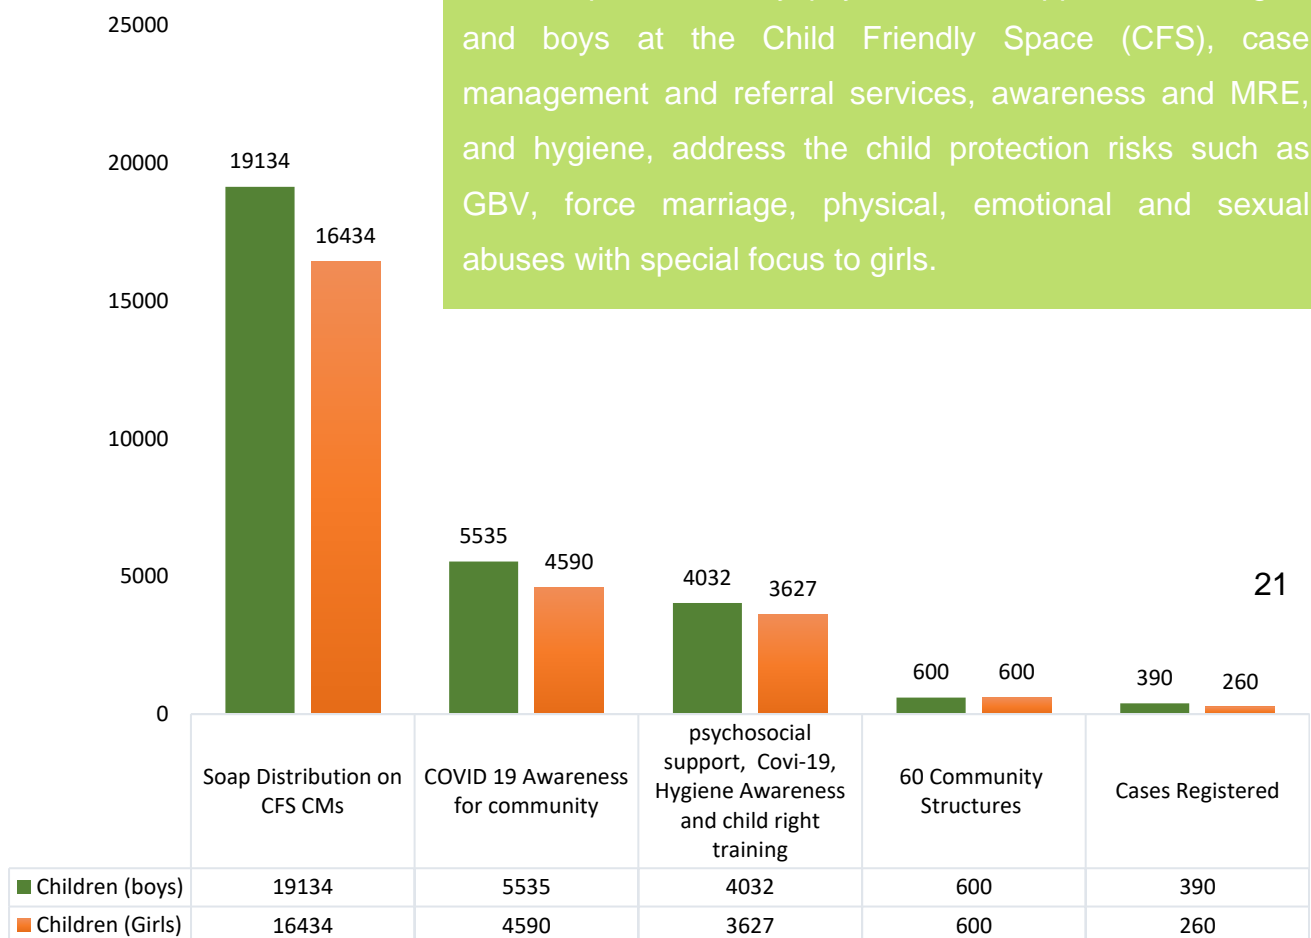

Beneficiaries benefited from LRP 9

Provision of Life Saving Protection Services – PLSPS

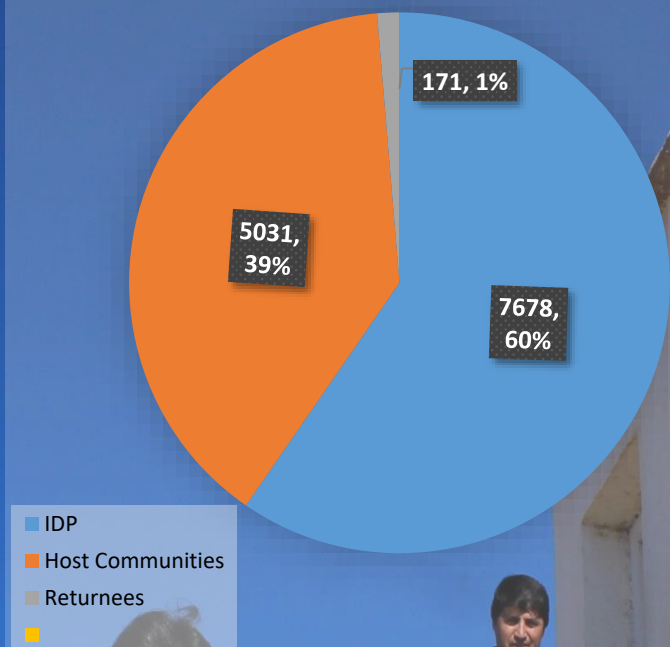

Life Saving Protection Services to the Conflict Affected Children in Nangarhar and Kunar provinces with financial and technical support of UNICEF under CERF. The project aims to provide timely psychosocial support to both girls and boys at the Child Friendly Space (CFS), case management and referral services, awareness and MRE, and hygiene, address the child protection risks such as GBV, force marriage, physical, emotional and sexual abuses with special focus to girls.

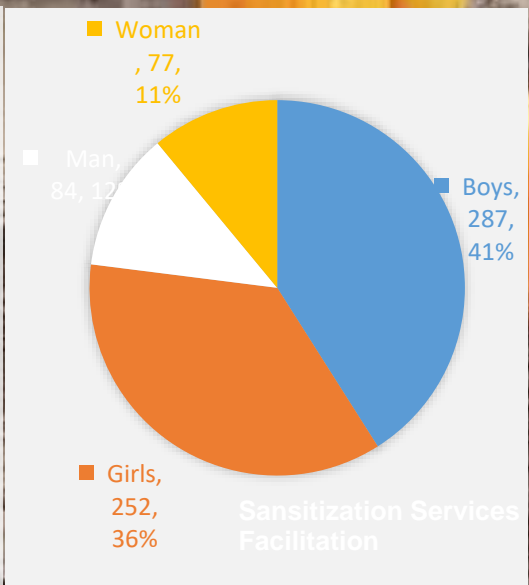

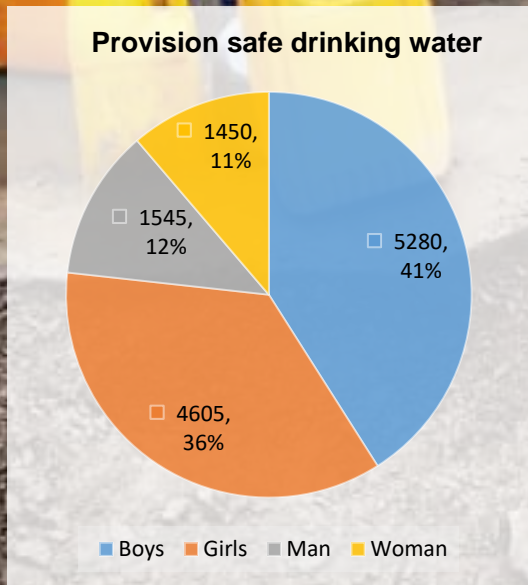

Beneficiaries received assistance through the interventions

Emergency WASH Response Project in Ghor Province

Targetted Population in WASH Project

Through this project, provided Wash assistance with elements of immediate and durable solution in the targeted project areas and communities identified by the WASH Cluster that have the most need for this support. The project is mainly providing facilities for WASH practice among the most vulnerable, disaster affected and suffering communities from high cases of water and vector borne diseases. Gender, protection and safe programming is mainstreamed in this project design, implementation, monitoring & evaluation phases across all activities, avoid form the open defecation, keep the dignity of families especially women, girls and decrease excreta related disease among the affected communities. The mainstreaming for this component to motivate them for changing their behavior regarding hygiene at personal, family & community level. And besides the hygiene awareness women, Men in the targeted communities have been provided with awareness raising on their human rights, especially in context of gender based violence, the ways of reducing GBV and ways of asking for support in case of any protection concerns.

Winterization Support to Most Vulnerable Communities in Balkh, Kunduz, Bamyan & Kabul Provinces

As per the project activity plan and to better and well manage the project activities, accountability and transparency in the cash distribution of winterization assistance to most vulnerable 1120 HHs. OHW paid them Cash through mobile money system and did the biometric registration process for the selected beneficiaries which was contracted with the AWCC/Mobile money team. Moreover, the targeted areas of the project were Kunduz capital, Imam Sahib and Aliabad districts, Yakablan#1 and Shebar districts of Bamyan province and Shorgarah, Dawlatabad and Dihdadi districts of Balkh Province. Furthermore, the same winterization project was implemented in Kabul Shadab Zafar, Diwan Begy, Proja e Taimani District #2 and #5 for the IDPs, Returnees and Host Communities and have managed the implementation of projects effectively and on timely manner.

COVID-19 Prevention Project in Balkh, Kabul & Kandahar

Enhanced community engagement and sensitization through awareness-raising on the prevention and spread of the disease in different districts of the target provinces including Kandahar and Balkh, disseminated soap and Information, Education and Communication (IEC) material conveying messages on the prevention and spread of COVID-19 to families in the target area, supported the MoPH diagnostic centers through recruitment of technical staff and provision of testing facilities including two standard Polymerase chain reaction (PCR) machines, testing kits and consumables., registered and referred suspected cases of COVID-19 to the national surveillance system. COVID-19 project was very important and vital program, because Balkh and Kandahar Public Health Departments didn't have the capacity to response the COVID-19 suspected people in term of registration, diagnose and awareness, through this program 3 technical staff hired to support Balkh public health department COVID-19 laboratory and three more 3 technical staff hired to support Kandahar public health department COVID-19 laboratory, the awareness rising messages were broadcasted through loud speakers the districts which are targeted for Kandahar province were Spin Boldak, Daman, Dand and Arghandab districts, the most significate result of awareness is that people have learned about the symptoms of COVID-19 virus.

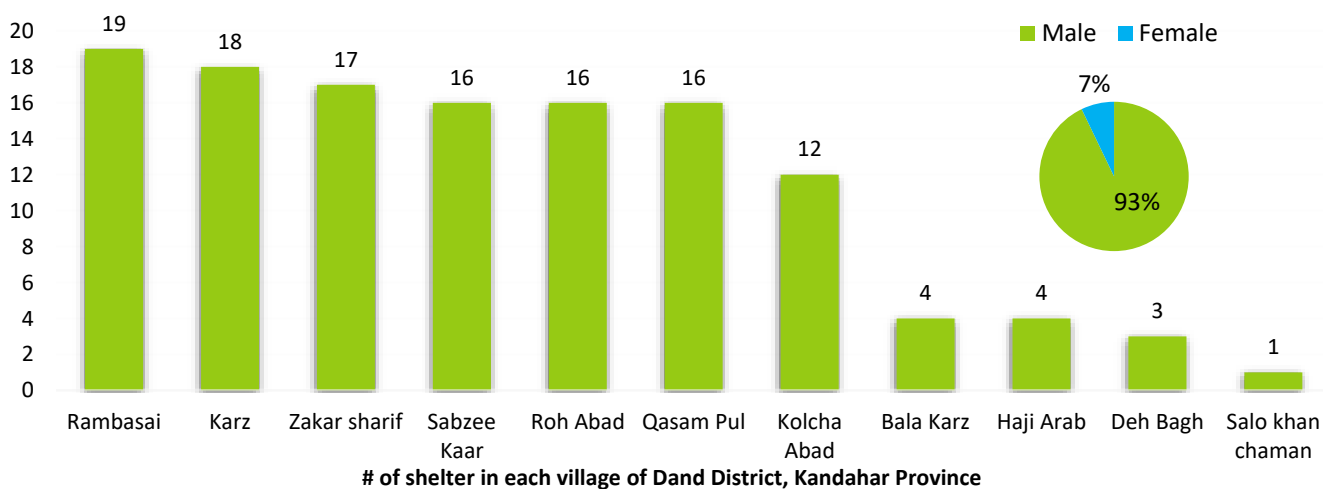

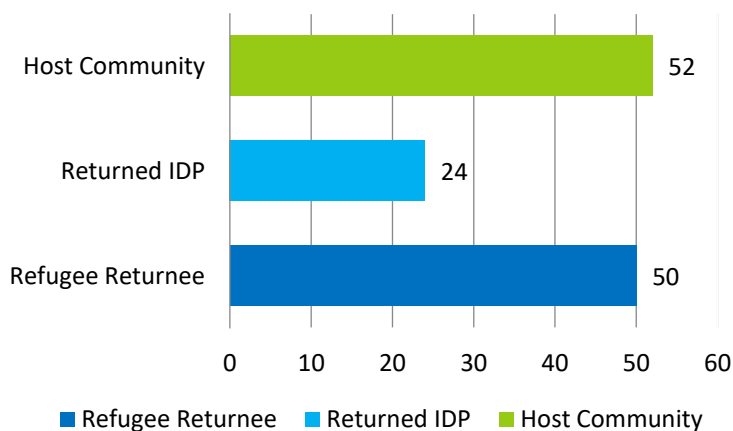

Community Based Protection Project

Cash for Shelter (CFS Project)

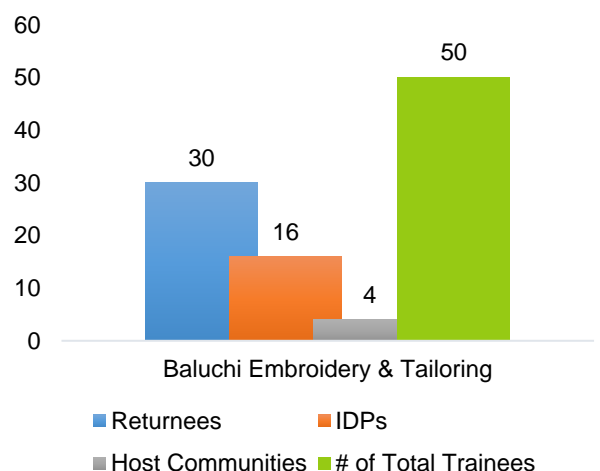

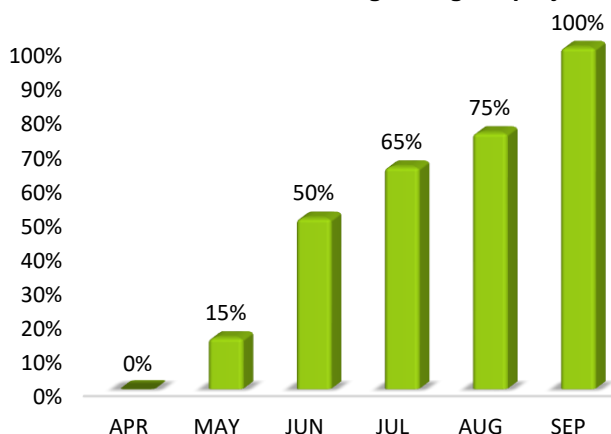

Construction of new shelters for the returnees, IDPs and poor living conditions host communities, the project has been comprised of constructing shelters for 126 HHs in Kandahar province Dand District and the 300 USD was given by UNHCR to the every single HH in three trenches based on the coordination and supervision of DoRR and relevant stakeholders. Throughout distribution of these three trenches the 126 HHs have completed their shelters' construction which contains one sleeping room, one Living room, Washroom and corridor and one outside latrine and finally the project was successfully ended on the April 30, 2020.

Vocational Skills on Baluchi Embroidery in Nimroz

OHW implemented Vocational Training Center (VTCs-Baluchi Embroidery) funded by UNHCR under CBP project in Nimroz province. A total of 50 women were trained for six months in Baluchi embroidery skill in Zarranj Nimroz Province. The main purpose of this project was to provide returnees women which had a bad living condition and had the responsibility of their families (HOH) so for this purpose the OHW implemented the project with skill that will enable and empower them to find sustainable livelihood opportunities and generate income through their new learned skill to support themselves and their families.

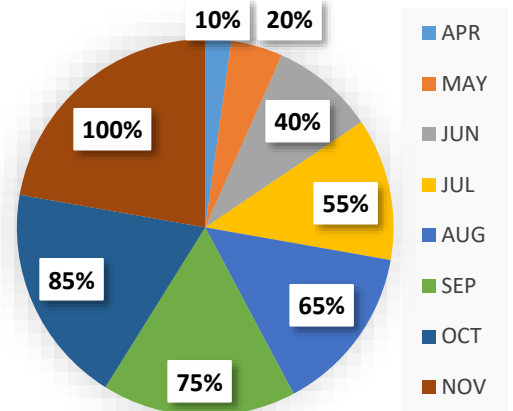

Status of vocational training during the project

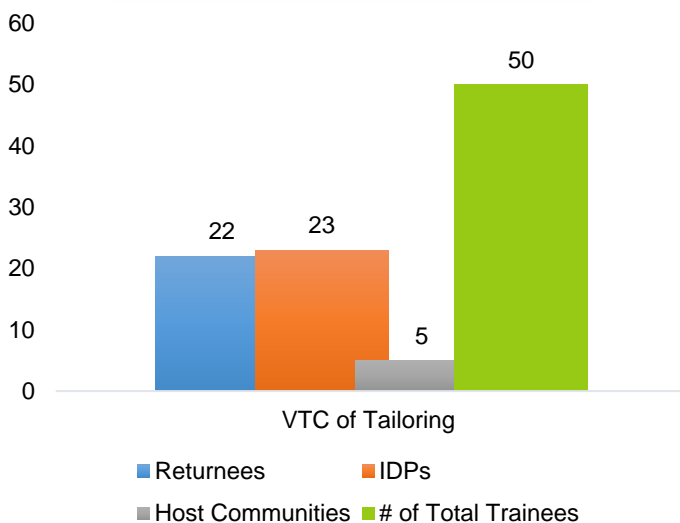

Vocational Training on Tailoring in Kandahar Province

VTC Project Progress Chart

UNHCR under CBP project in Kandahar province, a total of 50 vulnerable IDP, returnee and host community women, were selected and provided eight months tailoring skilled through professional master trainer and other trainers, the main purpose of this project was to enhance the capacity of beneficiaries in order to make them enabled and empowered to find sustainable livelihood opportunities and generate income through their new learned skills to support themselves and their families. In addition, all the beneficiaries received different sessions such as literacy awareness, Gender Base Violence (GBV), children rights, wash awareness and basic awareness about business during this project period.

Infrastructure Activities

Construction of new building of Shaheed Azimullah Girls High School in Loy Wala Kandahar Capital.

OHW constructed Shaheed Azimullah Girls High school building having 8 rooms in two floors, this school was assessed and surveyed during the joint assessment in April 2019 by UNHCR, OHW, PRRD, DoRR, APA and Department of Education, Loy Wala is very large area in Kandahar capital with so much population of IDPs from south and southwest regions and returnees came from Pakistan too. Totally, 1549 students including 49 teachers are benefited from the school

Opening Ceremony of Shaheed Azimullah Girls High School in the UNHCR Kabul and Kandahar level representatives, OHW and governmental departments representatives

DRAFT PICTURE AND NEED TO BE CHANGED

The Provision of Primary Health care to Internally Displaced Persons in Kabul Informal Settlements (PHS/KIS) Afghanistan

OHW is implementing Basic Package of Health Services project under Primary Health Services to IDPs Population in Kabul Informal Settlements in Kabul province and is operating through 5, Health Facilities (HFs) (2 static clinic and 3 mobile clinic), at least two female staff are working in each facility. OHW have found the need of the vulnerable population that the mortality and morbidity of the KIS/ IDPs were high and huge number of people have migrated from their own place and province to migrate and settled in Kabul province due to armed conflict and natural disaster, economic problem in their own provinces. Majority of the population have moved to Kabul city due to conflict in war in their own places. Moreover, huge number of families are living in the very crowded and congested houses, poor sanitization facilities, low level for basic hygiene, increase risk of the communicable diseases, lack of nutrition and increase mortality and morbidity of the women and children due communicable diseases and low vaccine coverage. Until April 2017 the IDPs received medical services by SHRO organization, the population did not have access anymore and the population is not generally have access to the health services. Men and women involved in the designing and implementation of the project, in every health facility at least 2 women were

Success Stories

OHW staff interviews Mr. Abdul Qodos on child marriage and Ms. Fatima 7-year-old child is also present.

Fatima's Child Marriage was canceled through the Afghan Women Leadership Initiative AWLI

Fatima is seven-year-old girl, she has the aspiration to get educated and have happy life with her all brothers and sisters, but unfortunately due to the child marriage bad tradition, she was given to Mohammad's 17-year-old son. As The Afghan Women Leadership Initiative project work for the strengthening the leadership and active engagement in the community, the OHW office was notified through the community people that a seven-year-old girls is engaged to 17-year-old boy. The OHW took measure and invite Fatima's father Mr. Abdul Qodos to take part in the women leadership and strengthening workshop and awareness session and Mr. Qodos learned very much knowledge about women rights in Islam and Afghanistan constitution. After few days, Mr. Qodos invited OHW staff to his house and was regret on his decision.

OHW thanked Mr. Qodos having shared the issue and explained the entire process of engagement in the light of Islam and emphasized that without the acceptance of any side either boy or girl, the engagement will not be taken place and whoever did such sin, he or she would have committed the biggest sin and will have nothing to reply in front God Almighty. After listening the statements, Mr. Qodos thanked OHW for the implementation of Afghan Women Leadership Initiative project and he decided to cancel the child marriage of Fatima and will admit her into a near school to get education.

Abas is 7 years old admitted to the CFS center and enjoy learning much things with his more classmates

The recent condition in which Abas is in CFS center with hygiene educator April 12, 2020 (Nangrahar Afghanistan).

The first visit in which Abas was found next to his house in Feb 22, 2020 Nangrahar province

Abas belongs to a poor family; his father is a labor and every day he earns money on which he only buys the food for one time for his family. During the visit, the hygiene educator found him in a very bad condition in terms of his personal hygiene. While the hygiene educator completed his checkup, it was found that Abas was suffering from diarrhea, eye pain and secretion of tear. So, the OHW team took him to Child Friendly Space or CFS to learn the personal hygiene and took him to the near hospital for remedy. Time was running, the health educator visited Abas to see his personal hygiene and checkup his illnesses. Moreover, Abas and his family members were practically trained about self-hygiene like hand washing with soap, nail cutting, oral hygiene, foot hygiene, hair care, cloths and so on.

Conclusively, through Child Protection Emergency Response – CPER it means practically that Abas's clothes were clean, the nails were cut, hand and face were clean, and his personal hygiene was totally perfect and also the diseases that were caused to the child due to his poor personal hygiene were not observed. Fortunately, it was found that Abas and his family followed all instruction and advices which CPER project hygiene team had shared with them regarding their personal and environmental hygiene.

Asma 12 year's old harmful street working child started education through OHW social organizer.

Asma a 12 years old girl from Maimana city of Faryab province, she is a street working child, her mother bakes bread and she was a bread seller in the city area of Maimana, carrying heavy weight of bread for a very small profitable amount of money. Asma says she works most of days till 07:30 PM and earns an insufficient amount of profit (100-150 AFG) a day.

Asma is learning from the social organizer and feeling happy from OHW assistances

Asma says “I met a social organizer from OHW, this lady stopped me and started asking me some questions, like why I was doing this harmful work being an under aged and a child who should play and study. Earning a chance, I shared the whole story of this difficult and bitter life. Social worker first gently asked me for sharing my personal information with her and then collected some important personal information in a form. The following day, the OHW social worker came to our area and talked to my father. She guided and gave awareness to my father about the harm and consequences of this harmful work and invited my father to fatherhood training. When my father participated in fatherhood training and he get aware of the convention of child right and the law on protection for child rights, he totally changed. My father thanked the OHW social worker and allowed me to join the Community children center (CCC).

Fariba 14 years old girl, established awareness raising class for other children of her village regarding CR, CP, CSG.

Fariba is the School Student Council SSC member in Besh Oyleg Girls High School, she joined the SSC group on October 19, 2020, Fariba belongs to a poor family and having economic problems, her father and brothers are also jobless. She decided to deliver what she has learnt in the SSC, she started a tuition class in which she is teaching to 25 children of her village with an idea of change about the situation of children in her village. She started to encourage other children to participate in the protection of child rights and child protection in her village, she is participating in every decision being taken regarding children with the support of other children in the area, she is raising her voice against early marriage of children and encouraging children to go school and become educated. Moreover, she is delivering the child rights policy to society and stands against the pressure being faced to children and supporting Do No Harm policy for the children, she changes the mentality of many families who were forcing their boys and girl to early marriage, she stands against the fathers who were not allowing their girls to go school and convincing the parents through community elders, Olama and educated figures like school and university teachers, she stopped the children from working on the streets and doing harmful works and encouraged to enrolled them to schools by changing the mentality of their family on child labor.

OHW-FRB to visited from the class and see the changes which have come, when social organizer visited, there were 22 children present in her class and all the children were very active in session deliveries and identification of child cases and delivering child cases to community based child protection networks (CBCPNs). Conclusively, the people of the village especially fathers were very happy of the activities and services being delivered by Fariba, all they were very happy and thankful of Fariba that she has changed their viewpoint and mentality among children and acknowledging them of the right which children have.

Khaleda's Child Marriage was canceled through the School Students Councils (SSCs) member Yalda a 16 years old

Khaleda a 16 years old girl, she has the aspiration to get educated and have happy life with her all brothers and sisters, but unfortunately due to the child marriage bad tradition, she was given to underage marriage. The OHW office was notified through the School Students Councils (SSCs) member Yalda that a 16 year's old girl, Khaleda daughter of Mohammad Rahim who has been forced to early marriage by her father forced her to leave school and her further studies after getting engaged. The OHW took measure and invited Khaleda's father Mr. Mohammad Rahim to take part in the fatherhood training and give him awareness session of the bad effects of child marriage and Mr. Mohammad Rahim learned very much knowledge about child rights in Islam and Afghanistan constitution.

The result of the conducted training was: The father of Khaleda got information about all the rights of the children and give the permission to continue her education and go to school, after some days the child protection team visited from the house and family members of the child and all they were very happy and thankful of the coming of this project in their village and changing their idea and mentality on the rights of children. Conclusively, OHW thanked Mr. Mohammad Rahim having shared the issue and explained the entire process of engagement in the light of Islam and emphasized that without the acceptance of any side either boy or girl, the engagement will not be taken place and whoever did such sin, he or she would have committed the biggest sin and will have nothing to reply in front of God Almighty. After listening the statements, Mr. Mohammad Rahim thanked OHW for the implementation Yalda the member of SSC and he decided to cancel the child marriage of Khaleda and will admit her into a near school to get education.

Firoza a 13 years old girl, showed courage and stopped her early marriage by having the knowledge of her rights.

Firoza a 13 years old girl lives in a poor family in Khan Aqa village of Pashtoonkoot district with two sisters, one brother and a mother she at the very younger age leads her family by weaving carpets she is a house headed child her two sister and one brother is younger than her and her mother is very weak she lost her father a few years ago

because of sickness. In a very younger age she has to support her mother, brother and sisters besides she is studying in Charmgar secondary school in grade six and successfully she is an active member of Children Groups.

She is very interested and motivated to participate in the activities of Children Group meetings and trainings held by OHW/SCI in Pashtoonkoot district and our team observed her very active in the Children groups she learned much on Child Rights and Child Protection and started to transfer the learnings to others in School, Community and home. As she is living in a poor family once a day her mother started thinking of to give her 13 years old girl Firoza to early marriage and remove her poverty because Firoza is the only one who weaves carpets and earns some money to feed her mother, Sisters, and brother she does her best but as she is very young she could not make it a lot besides she studies in school and is a member of Children Groups so her mother decided that the only way to remove her financial issues is to let her 13 years old child to get married. when the proposed family came and they were discussing about the engagement she suddenly appeared in front of them and said that I am a 13 years old child, I have my rights and I am so young, I can't get engaged until I am 18 years old, so kindly please go and leave us alone this is my right and I don't want to get married now. Then the proposed family leaved her home and she showed her believe on herself and her right that she has been learning it in the meetings and trainings held by OHW/SCI.
